ABOUT US

As a Dubai Municipality-approved company, we guarantee safe disposal of Waste Electrical & Electronic Equipment (WEEE), all kinds of lamps, all mercury-bearing devices and universal waste. We provide our customers with a Destruction/Recycling Certificate.

We are the first and only Dubai Municipality-approved Lithium-ion Battery recycling entity in the region.

We at Madenat aim to support individuals and companies in recovering value of their used resources and increase market visibility through CSR initiatives.

WHAT WE OFFER

Complete recycling solutions across various industries throughout the United Arab Emirates with tailor-made solutions which are effective and efficient.

Technology - A fully fledged factory equipped with modern machinery that segregates & destructs the items to avoid disposal to landfill. Hence, ending the item's life cycle.

Comprehensive Solution - We eliminate the need of waste service providers as our team can handle the safe collection and delivery of items in compliance with Dubai Municipality Guidelines & Global Best Practices.

Experience - We have established relationship with governing authorities to get proper documentation in timely manner with our 30+ years of experience.

ELECTRONICS AND ELECTRICAL

We offer the most comprehensive and secured recycling solution for all electronic & electrical equipment.

WHY US

Business partnership with us is hassle-free.

Our professional team provides timely assistance.

Madenat assures an environment safe recycling process that means the destruction and recycling processes are undertaken in accordance with Dubai Municipality/UAE guidelines & regulations.

Apart from our R2v3 and ISO certification which ensures quality recycling, we have won 'Best eWaste & Waste Recycling Company 2018', 'Best One-Stop Environmental Services Company – Dubai 2019' by MEA Markets and many more awards which reinforce the quality.

OUR SOCIAL RESPONSIBILITY

Madenat Al Nokhba Recycling Services LLC does the business with a social purpose.

We work closely with NGOs in UAE, Africa and other developing countries for charitable work. We handover the refurbished computers, laptops, and other useful IT products to schools, colleges and hospitals.

As a part of our CSR policy, we contribute 2% of our Company's profit to charities through our NGO partners.
